 - Automata
-

EXPERIENCE

[Yardi Systems](#) | Oxnard, CA

10/2021 - Present

Web Developer

Commercial and residential property management platform

- Translate wireframes and prototypes into pixel-perfect responsive components using HTML, CSS, and Typescript within the Angular framework.
- Develop directives that animate state changes for custom framework components.
- Refactor legacy codebases to use native elements that specify values of accessibility-related attributes.

[UnravelCloud](#) | Woodland Hills, CA

06/2019 - 06/2020

Frontend Web Developer

Web-based dashboard optimizes and monitors cloud accounts providing costs and usage data

- Made API calls to retrieve data from the backend to display on the frontend using React/JSX
 - Minimized Time to Interactive (TTI) by ~200 ms with route-based chunking via Webpack module bundlers.
 - Refactored codebase to utilize ES6 features such as destructuring, arrow operators, and ES6 classes.
-

EDUCATION

California State University Northridge | Northridge, CA

08/2017 - 05/2020
